DETAIL ACTION

Oath/Declaration

The oath/declaration filed on 9/26/2003 is acceptable.

This application is in condition for allowance except for the following formal matters:

i) The drawings are objected to for the following reasons.

Figures 1A- 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

ii) Cancellation of claims 1-13 and 27-39.

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Reasons for Indication of Allowable Subject Matter

Claims 14-26 would be allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed Method for repairing a non-functioning integrated circuit having the step of activating said fuse in said integrated circuit chip active surface by directing said LASER at said substrate backside surface and focusing said LASER energy such that an intensity of said LASER energy at said fuse causes multiple-photon absorption by said fuse, said fuse thereby connecting said redundant repair circuitry to said circuitry formed in said integrated circuit active and among other steps/limitations as cited in independent claim 14.

If Applicants are aware of better art than that which has been cited, they are required to call such to attention of the examiner.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

When responding to the office action, Applicants' are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.
